

Dear Charles,

I cannot remember in the least where the rest of those wood-cuts are. Look in the drawer at the bottom of the little whatnot, or conceal that stands in the corner of the small study, next the door as you enter from the front entry.

I had meant to write to Sprague, but time I cannot yet find. This must be closed this morning. Please ask him to send me some account of how he is getting on. - and to send at once proofs on thin paper of the Wright Plants he has been figuring, by mail. - give the letter to Cunningham to address & forward. - And to let me know if he has drawn any Ex. Exped. Plants - & forward if he has several, by addressing to me & sending to Geo. P. Putnam, 67, Broadway, N. York. - (Oct. 8?)

We have, since Tuesday (day before yesterday) evening been enjoying English Country life at the seat of Mr. Olive - collateral descendant of the Lord Olive, so famous in India. and have been much pleased, with cordial, hearty people, & a fine place. I have had the pleasure written some account, or will by next mail.

I must not hold you - or I shall be kept till Xmas. - there is so much to do. - & so hasten to say Good Bye -

Yours ever

A. Gray
